

To Guides interested in receiving referrals

A & B Pro Guides (ABPG) is a growing network of Oregon and Washington licensed guides and charters who have agreed to accept client referrals through our service. ABPG helps fill the gap for those looking for a fishing trip, but are not sure what species or location to fish and are not sure how to locate a quality guide.

Our job is to help arrange trips for families, business groups and individuals directly with the guide or charter service that best fit their needs and can insure the highest chance of success. We are also here to insure that our clients take their trip with a safe, qualified, licensed guide with the highest amount of favorable feedback from past clients.

ABPG provides all clients with a detailed map and driving directions to the meeting location. We also offer many other amenities including private round trip transportation services as well as information on nearby lodging and fish processors.

We collect a small deposit from the client (typically 10% of the total trip price). We then begin researching guides that best fit the clients needs. When a guide with open seating is located we reserve the seats with the guide and send a confirmation letter to the client with the guides contact information, meeting time and location, etc.

Availability of open seats, dates etc. will be verified with each guide prior to all bookings. Guides will also receive a copy of the confirmation letter with all of the clients contact information, email, physical address, date of trip, etc.

If you agree to becoming a member of A & B Pro Guides referral service we would be happy to continue sending clients your way and welcome you to our network of over 180 Oregon and Washington guides and charters. A flat 10% tour operator's fee will be charged for each client referral that books a trip. No fees are charge for ocean charters. Guides who have their Web sites hosted and/or maintained through ABPG receive the first chance at all referrals. Next on our list are guides and charters who have the highest amount of positive client feedback.

Please sign this agreement below to continue receiving unlimited referrals from ABPG. Signing this letter verifies that you have read and understand our service and agree to receive client referrals from ABPG, according to the terms mentioned above.

Thanks,

Have us build or redesign your Web site and you get the following:

A BIG plus for guides and charters who have us build and manage their site is that we place them in the top 20 of our referral list. This is something no other Web development company can offer. There are currently 21 Oregon and Washington guides and charters in our top listings who receive referrals from www.abroguides.com

We always attempt to refer clients to those guides in the top listings first. This alone can direct a significant amount of business to you while your site develops rankings in the search engines. This is especially valuable to new and upcoming guides who do not have a large base of returning clients. In addition, many of the clients that are referred to you from us become long term customers.

We do all the copy (writing) and at no extra cost. We started and operated The Local Fisherman Newspaper 1998-2005 and have a lot of material, information and knowledge related to fishing in the northwest.

The cost for us to develop your site (10-15 pages) from the ground up would be \$150.00. This is a one-time setup fee. If you would like us to host, manage, maintain and submit to search engines the monthly cost would be \$32.00. We do not charge for updates or additions of photos.

If you prefer a smaller 5 page site the one-time set up fee is \$135.00. However, I would strongly suggest a larger site. In order to develop decent rankings in the search engines it takes a fair amount of material (text, photos, etc) and with a 10-15 page site you get all this and more.

In regards to search engine submission and rankings; with your new site we include monthly submission to over 300 of the top search engines. In addition we also offer paid submission options that have proven cost effective for many of our current customers. Cost for this service is \$18.00 per month or choose our Extreme Submission plan for \$250.00 per year.

We also alter and optimize the HTML code on all of sites we design to insure the best rankings possible.

If you do not have a domain name we can provide one **free** with your site. In addition we can also offer you rental of a top domain name for your site. Cost: \$35.00 per year.

These domains contain keywords that are often used to search for guides in the northwest and therefore rank high in the search engines when combined with a like site.

Please note, with hundreds of thousands of Web sites submitted to the search engines each day it currently takes anywhere's from one to two years to developed decent rankings. We have had exceptions to this, with many of our sites achieving first page rankings on Google within four to six months of development.

Professional copyrighting of submitted material for each site is also available to our customers at no extra charge. We also design banners for your site at no cost and provide downloadable pdf files with maps and directions to your meeting locations. Your clients can print these directions to help them find you on the day of their trip.

I can go on and on about all of the additional things we offer, but I believe the information I have provided thus far is likely all you will require to make you decision.

If you have any further questions, or would like to have us begin development or redevelopment of your site, please feel free to contact us by email or phone.

You are also more than welcome to contact any of our current Web site customers to hear what they have to say about our service:
